ADDENDUM NO. 7

Item No. 1

QUESTION: The contract documents do not appear to list any minimum qualifications for the tank contractor building the reinforced Yamada and Clearwell Reservoirs. Please confirm if the tank contractor needs to meet any minimum specifications. Typical minimum qualifications for reservoir projects similar to this may include: In the last 5 years, the tank contractor shall have built a minimum of 2 circular reinforced concrete reservoirs with a sliding base joint and seismic cables (as shown in the project plans).

ANSWER: Tank Contractor must have built a minimum of 1, circular concrete tank within the last 10 years. Bidder must submit the project(s) confirming compliance with the minimum qualifications.
