H. NEW BUSINESS

1. Manager’s Report No. 21-06 - Discussion and Possible Action on approval of funds for Contract No. 427, Job No. 02-14, WP2020 WK-08 Kapa’a Homesteads 325’ Tanks – Two 0.5 Million Gallon (MG) Storage Tanks, Kapa’a, with Belt Collins Hawai’i, LLC in the amount of $40,978.70

BACKGROUND:
Civil Engineer Mr. Keith Aoki mentioned that this project is in design review and explained that many years ago the funds for the contract were not rolled over to the budget. He requested for the remaining funds for the contract be re-approved by the Board to pay the consultant when invoiced. No additional funds were being requested.

DISCUSSION:
Mr. Dill pointed out on the Manager’s Report on Page 23, 3rd paragraph, “Fiscal has started checking with Engineering for Purchase Order (PO) rollovers when the budget of the new year is being prepared.” This may be a Fiscal question to identify POs that are rolled over yearly for budget process. He mentioned that Engineering must now track the remaining outstanding rollover balances.

Mr. Dill asked Waterworks Controller Mrs. Yano if Fiscal could track all POs with remaining balances by cross reference check. During the budget process, rollover POs should not be missed. Mrs. Yano responded by saying Fiscal cross checks PO balances in existing contracts but didn’t noticed that on the contract terms it expired and the rollover did not happen. According to Engineering, there was a contract extension but instead of letting the contract lapse, the contractor was extended based on Engineering’s suspension. As a result, the contract was zeroed out.

At 10:12 a.m., Mr. Kamm lost connection on remote but reconnected.

Chair Akamine called a one minute Recess at 10:14 a.m. to consult with DCA Krafft.
Chair Akamine called the meeting back to order at 10:16 a.m.

Mr. Kamm asked how frequent are rollover cross checks done? Mrs. Yano said the cross checks are done at the end of the year. She agreed to do cross checks more frequently as suggested by Mr. Kamm.

At 10:19 a.m., Mr. Hull joined the meeting.

BACKGROUND:
Civil Engineer Mr. Michael Hinazumi requested the Board for approval of $160,000 for Information Technology (IT) support services on Option 1 on Page 25. IT support services was extended a couple of times pending the interview and selection of a Waterworks IT Manager. The individual who was selected in July declined the position then the Department re-recruited for an IT Manager again. Interviews are tentatively set for next week and during this time, IT support services continues to be needed to service the public. The extension will carry over to January 31, 2021. When the request for funds are made, Mr. Hinazumi will work with legal counsel to fund the contract amendment.

Mr. Hinazumi indicated the beginning of the proposed amendment would start October 1, 2020 (next 4 mos.).

Chair Akamine inquired if the amendment amount of $160,000 is approved and the new IT Manager has started, would some of the funds not be expended? Mr. Hinazumi said some funds may be used as a cross over to transition the new IT Manager, if not, the additional funds may not be spent.
