

PART 5
FACILITIES RESERVE CHARGE

*within the County of Kauai
and Providing Penalties for the Violations Thereof*

SECTION I – GENERAL PROVISIONS

1. Purpose and Authority
 - a. Capital water facilities expansion is needed in order to accommodate increased demands on existing source, storage, and transmission pipeline capacity due to new development and/or additional demand of existing users. New development and/or additional demand shall be assessed a Facilities Reserve Charge in proportion to its impact and demand on capital water facilities. The Facilities Reserve Charge shall be expended for public capital water facilities projects. These rules were enacted pursuant to Hawaii Revised Statutes (H.R.S.) §46-141 *et seq.* and other applicable State law.

2. Findings
 - a. In the review of the impact of growth relative to the existing and planned capital water system facilities capacity available to the water system, the Board hereby finds that the recent and anticipated population growth rates and corresponding water demands would place additional burdens on the existing water system. The Board further finds that such growth and increased demand would necessitate increased expenditures of public funds in order to create adequate facilities and to promote and protect the public health, safety, and welfare. The Board also finds that it is fair and reasonable to impose additional fees to accommodate such development. *Finally, the Board finds that establishing benefit zones as identified in Hawaii Revised Statutes (H.R.S.) §46-14* is not necessary as a reasonable benefit can otherwise be derived.*

 - b. The following rules shall govern the assessment of impact fees for the Board of Water Supply, County of Kauai capital water facilities expansion. New development and/or additional demand shall be assessed impact fees in proportion to its demand on capital water facilities and the impact fees assess shall be expended for public capital water facilities projects. The Facilities Reserve Charge (FRC) was adopted in accordance with the report prepared by an independent consultant retained by the County of Kauai, Board of Water Supply (Board) to
